CHALLENGE SENT BY HOBSON TO UNDERWOOD

Joint Debate Def Follows Wordy
Combat Between Two Alabama
Senatorial Aspirants.

WASHINGTON, Oct. 14.—Representative Richmond P. Hobson, of Alabama, today challenged Representative Underwood, of Alabama, to a joint debate in Alabama. This is the second time the two men have been in the House together.

Representative Underwood declared today that if Underwood attempted to give the impression that Secretary Bryan was with him he would demand that Bryan make a clear statement of his position. Underwood does not intend to drag Bryan openly into the campaign.

"I do not see how Mr. Bryan can suggest a reactionary type of politics," said Hobson. Underwood has not yet replied to Hobson's challenge. Both candidates will go to Alabama to enter the campaign.

The allegation that Thomas P. Ryan contributed \$100 to the campaign fund when Underwood was a candidate for Governor of the White House, Representative Underwood, who made the charge yesterday in replying to the attack upon him by Representative Hobson, today repudiated the statement. He said that he had been misled by a friend.

NATURE intends every human to be strong and well. Most disease is either ignorance or carelessness. Blame the parents, the school, the government, incompetent parents—everyone except a pretty good start in life.

If children get sick, it usually is the fault of the parents taking care of them. It is the parents' fault for their ineptness. It is largely their own fault.

"You're a weakling," I can't help it if I inherit a weak stomach. Oh, yes, you can.

It is not so much heredity as your stomach. If you were going to be a lawyer you would study law. If you were going to be a doctor you would study medicine. If you were going to be a scientist you would study chemistry. If you are going to be healthy, study the care of your clothes that is the key to about the care of your health.

Study your diet. Find out the effects of the various foods. Find out the effects of getting enough exercise. Keep yourself fit. Find out what it is that makes you strong. Learn to rely alone the food—and the drinks—that your stomach needs.

Make up your mind to be healthy. Go to the 1300s here for the best information. The information is provided free for everybody. **FRESH AIR, FRESH WATER, DRINKS, EXERCISE.** Learn the care of all things where you can.

Medium-Sized Acreage
Tracts

All of us know the profit that is usually made from acreage.
We have a sure profit in it. In power of it. When we think of acreage
we think of a lot of land and usually a lot of money. In fact, we
have the usual acreage transaction involves a great deal of money.
The demand for good, clean acreage for subdivision purposes is
increasing every day. A little bit of the outskirts of the city in any
direction is a tract of about 100 acres, between Inman and East Lake, which
we have put up into four 250 acre tracts. The price and the profit
from these tracts make it possible for almost anybody to handle them.

Medium-Sized Acreage
Tracts

All of us know the profit that is usually made from acreage.
We have a sure profit in it. In power of it. When we think of acreage
we think of a lot of land and usually a lot of money. In fact, we
have the usual acreage transaction involves a great deal of money.
The demand for good, clean acreage for subdivision purposes is
increasing every day. A little bit of the outskirts of the city in any
direction is a tract of about 100 acres, between Inman and East Lake, which
we have put up into four 250 acre tracts. The price and the profit
from these tracts make it possible for almost anybody to handle them.
